"MAINE PRIZE WINNERS"

SPRING PRICE LIST OF GLADIOLUS 1941 GREETINGS

It is with pleasure that I prepare this modest list to send on to you. I only wish it were possible that I might hand it to you personally and that we might have an hour or two in which to compare notes on the new ones that we saw at the Shows or grew last season which seemed just another step ahead, which, of course, we all want as soon as price permits.

Thank you. I greatly appreciate all the business that you have given me in the past, and all the very fine letters I have received in the past. They sure encourage one to keep on and try to do just a little better.

This past season was the most successful one we have ever enjoyed. Early in the season we had it very dry but later we had plenty of rain so we have some fine bulbs to offer this season.

Your visit was enjoyed and I hope you enjoyed visiting FAIRYLAND GARDENS and that you will plan to pay us a visit this summer and see many of the new varieties and seedlings which have not yet been introduced.

Yours for more and better flowers,

MAX L. LEAVITT.

Guarantee. We guarantee to please you. Anything we send out if it is not satisfactory return it and we will gladly refund your money. It is our intention to send out only the highest quality stock which is true to name and free of disease. Anything found otherwise will be cheerfully replaced or money refunded.

Extras. We include extras with all orders. If you would send a list of a few varieties you would like to try from which to select your extras, it would help us both. Postage paid on all bulbs from this list.

Premium Bulbs Free. To anyone sending in an order of \$5.00 or more and will promise a report when it blooms, we will send a medium bulb of a "new gray" seedling, No. GS831. This is a wonderful new pink. We have grown it six feet tall with 6-7 open in the field. No crooking in this one, good habits. A large bulb with a \$10.00 order, and if your order totals \$15.00 we will include a couple blooming size bulbs of Autumn; and if it totals \$20.00 we will put in a bulb of Rose of Sharon for good measure.

WINNERS

Yes, sir, at the Maine State Glad Show, August 23-25, Leah Ann first in its class with a large list of entries, also vote of thanks for a recent introduction. Henet also had the honor of carrying away the blue ribbon in its class. This was the only two gray varieties that was shown due to a late season.

You are a loser of much enjoyment if you are not growing the Gray varieties. We have many fine reports from them from many sections of the country. This past season we had a call from florists for all the Blooms we could cut from Leah Ann. Henet has proved to be one of our best commercials, never any left over stock on this one. Miss Ann is the florists' favorite for bridal work, also a corsage made from this is as beautiful as one made from orchids. Henet's Favorite has given us some wonderful exhibition spikes which would take some beating on the exhibition table.

The two new ones we are introducing, Autumn and Rose of Sharon, will, I believe, take their place in their color classes. Rose of Sharon is one of the very finest commercials it has been my privilege to see in a long time.

SPRING GREEN POST, NO. 253

LEGION TRIAL GARDEN REPORT ON SPRING GREEN, WIS.

Rose of Sharon planted 5/9, bloomed 8/4. 52 inches tall, 27-inch head, 20 buds, 7 open, 3 to 4 in color. 4½ in size. Excellent texture, plain wide open petals, heavy straight spike, broad upright healthy foliage. Lavender rose which looks well individually and in mass. No fading to this. You will have to like it.

Autumn bloomed 8/16 from 5/9 planting. 65 inches tall, 20-inch head, 16 buds, 5 open, 4 in color, 4½ in size. Perfect facing and spacing. Excellence texture, stem willow to medium, but always straight. Foliage, broad, tall, upright and healthy. Reddish and yellow brown of autumn. In spite of my personal dislike for smokies, this appealed very strongly to me in its coloring and its performance being so exceptional makes us rate this as exceptionally good. Well worth getting a start with while still high priced.

INTRODUCING

Rose of Sharon (Gray). Here we have a new shade of lavender rose with the throat dusted like that of a Gloxinia. This was a great favorite with garden visitors and received much favorable comment. With us it grew about 5½ feet tall, opening 6-7, 4 to 4½-inch blooms on a spike of 20-22 buds. This grows as straight as an arrow, with facing and spacing excellent. An exceptionally fine keeper as a cut flower and well liked by the florists. Makes fine clean bulbs and is a good propagator. Bound to make many friends. L., \$3.00; M., \$2.00; S., \$1.00; Blts., 25 each.

Autumn (Gray). Here is something that is entirely different in the line of smokies. One that is very difficult to describe to do it half justice. My best description of it is reddish and yellow to brown of autumn with a small throat mark of yellow which greatly enchants the beauty of the flower. This opens up a fine spike with 5-6 open at one time. Facing and spacing excellent. The plants are fine and healthy, often reaching a height of six feet. Heavy propagator and bulblets grow like weeds. L., \$1.00; M., 75c; S., 50c; Blts., 3 for 25c.

Alta (Young). Plant growth is fully as strong as Picardy with fine growing habits. Color is rather difficult to describe, but the general body color might be called a deep salmon pink or a light rose pink with marking of a deep maroon of a very unusual effect. With me this past season the blotch was plum colored. You cannot imagine how beautiful this flower is without seeing it. Open 5-7, 4½ to 5-inch florets with 4 in color. Excellent texture and always straight with broad, healthy foliage. Facing and spacing excellent. This created a sensation with the garden visitors and one they thought they all must have. Don't be fooled by the low price as there is a good stock on hand permitting a lower price. It is worth much more. No. 1, \$1.00; No. 2, 80c; No. 3, 60c; No. 4, 40c; No. 5, 30c; No. 6, 20c; Blts., 10 for 50c.

Mr. Leavitt,

Dear Sir:

I am the oldest man to be interested in Gladiolus, age eighty three and one half years. I have about 1500 in all to plant this spring also a quart of seed pods. I hope to visit Fairyland Gardens again this year. Hope some time you can drive over and see what I have. I am sending \$5.00 order for Gladiolus, on next page find names of a few of my selection the rest of the \$5.00 worth I am trusting to your selection as I have always got my money's worth at Fairyland Gardens.

Very truly yours

Amos L. Bennett
